Re: Town of Schroepfel – Bankrupt Road Water District

Dear Property Owner:

As you may have noticed, construction of the Bankrupt Road Water District is progressing nicely. Construction is expected to be complete by late summer/early fall 2024.

With that being said, the Town and Town Engineers are getting a number of calls and questions regarding connection to the new water system.

Please **DO NOT** connect to the new water system until you receive correspondence from the Town and/or Town Engineers indicating approval to do so. There is disinfection and testing that needs to be completed and approval given by the New York State Department of Health (NYSDOH) before the system can be put online and made available to the public.

Once NYSDOH approval is obtained, the Town Engineers will send correspondence to all involved property owners indicating the approval to connect. That correspondence will include all information regarding connections, including required service material type, and contacts to have your service installation inspected and to obtain your water meter.

Until that time, please refrain from connecting.

Sincerely,

JoAnn Nazarian
Town Supervisor
