

TOWN OF SCHROEPPEL

Public Sanitary Sewer Study

The Town of Schroepfel is working with Barton & Loguidice to evaluate the potential for expanding sanitary sewers throughout the Town.

As part of this effort, the Town is seeking feedback from residents regarding their interest in the project and need for public sewers.

UPCOMING EVENT

A public informational meeting will be held at the **Schroepfel Town Hall** on **February 11, 2025 at 6:00pm** immediately following the Town Board Meeting.

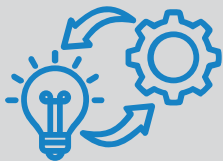

You're invited to attend to learn about this exciting opportunity for our Town!

Stay Informed!

Visit the Town of Schroepfel website or scan the QR code to follow along throughout the course of the project.

SCAN HERE

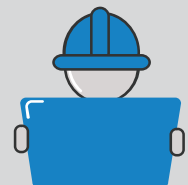

PROJECT DEVELOPMENT

The Town will evaluate the need for public sewers and identify a proposed project. The project service area will focus on addressing health and safety concerns.

FUNDING APPLICATIONS

Once a project area is selected, the Town will apply for funding from several agencies. Grant funding will reduce project costs for residents in the project area.

DESIGN AND CONSTRUCTION

With sufficient funding secured, the project will be designed, bid, and constructed.
